

Compared to the original ERD, several changes are made following the instruction from Professor.

1. All primary keys are renamed, following the format of "Entity\_ID".
2. Restaurant\_ID in the Dish entity is no longer a primary key.
3. The 1-to-1 relationship between Customer and Comment has been changed to an 1-to-many relationship.
4. The 1-to-1 relationship between Customer and Order has been changed to an 1-to-many relationship.
